Congratulations to Our Undergraduate and Graduate Scholarship Recipients!

John Orzechowski is an aspiring user experience (UX) professional with a strong interest in Health IT. He is a senior at the University of Minnesota – Twin Cities, pursuing a Bachelor of Science in Scientific and Technical Communication, graduating May 2016. His academic major and research are focused on user experience (UX), design, and health informatics. John's academic pursuits are complimented by Health IT research projects and internships that have included health analytics, user experience design, usability research and testing, and mobile technology. He has been awarded several scholarships recognizing academic excellence and is a featured student at the University of Minnesota. His career objective upon graduation is to make an impact in Health Information Technology. John is from Northbrook, Illinois and currently resides in Minneapolis, Minnesota.

Shannon Hulett, MSN, RN, CNL is a practicing informatics nurse at Gundersen Health System in La Crosse, Wisconsin. Hulett is also a DNP student at Loyola University-Chicago, focusing in healthcare informatics with plans to graduate in 2017. Hulett received an MSN through the University of Wisconsin-Oshkosh in 2011 and her BSN through Viterbo University in 2004. Her clinical background includes cardiopulmonary and medical-oncology care; she has also worked in risk management. Hulett is married and has three daughters.

Each recipient was awarded \$2,500 to assist in their continued studies in Healthcare IT-Congratulations!

Mark Your Calendars for GCC HIMSS Webinar Series!

January 19th "Xtraction, Changing the Way you Manage Your Business"

Bruce Cameron from Landesk Software will be presenting on how organizations and users continue to demand faster and deeper insight into their data. The solution needs to be simple and not involve complex processes, cumbersome products, or dependency on data specialists. These requirements continue to drive the need for self-service reporting and data analytics and have also created a new class of user - the citizen data scientist. Learn how to choose a solution that will provide valuable information to you in quick and concise formats.

January 19th, 2016
12:00 p.m. - 1:00 p.m. CST

In this webcast you will learn:

- Self Service IT Reporting and dashboards
- IT centric metrics and analysis
- Quick to set up and upgrade. No long implementation projects
- Easily displays multiple data sources into dashboards and reports with simple drag-and-drop functions
- Real time analytics enable you to make informed business critical decisions
